I've added a desktop shortcut on each of the computers to the SQLBackup folder and given rights to the folder to you, Sharon and Jim. Let me know if this works or if it needs to be mapped to a drive letter - and if anyone should be added/removed from access.

Thanks, Eric.

Could you also map the computer DPH-WS-Q2107-LC with IP address 146.243.71.77

Also can you check and see if this computer can see Q:\APPS\DRUGLAB? We don't seem to be able to open the Boston application on that computer.

I can see the R: drive on my computer, IP address 146.243.71.82, but we can't see it on 146.243.71.78, 146.243.71.83. Do we need to reboot?

**Subject:** Drive Mapping for Drug App

I have added a start-up batch file to the PCs used by Cam, Jim and Sharon. It will map drive letter R: to dph-arosql\Amherst.
